

GENOME MEDICAL

GENETIC COUNSELING SERVICES

Exact Sciences and PreventionGenetics are working with Genome Medical for specialty genetic services. Our team is dedicated to helping you on your genetics journey.

WHO IS GENOME MEDICAL:

Genome Medical is a nationwide medical practice specializing in genetics. Our clinical team includes genetic counselors, medical geneticists, pharmacists and other specialists who provide care across all 50 states. We provide telehealth appointments with genetic experts through video or phone consultations.

WHAT TO EXPECT DURING YOUR APPOINTMENT:

- Review the reason you were referred to Genome Medical
- Collect your personal and family medical history
- Review any genetic testing that has been performed
- Assess your risk for an inherited cancer condition
- Review if and how genetic testing may help you answer your health questions
- Facilitate and authorize genetic testing when determined appropriate

HOW WILL MY APPOINTMENT BE SCHEDULED:

Genome Medical's team of Clinical Care Coordinators will be contacting you by email and phone with instructions on how you can schedule your appointment. If you do not hear from a member of the Genome Medical team within 3 business days, you may also reach out directly by calling (855) 669-4579 or emailing riskguard@exactsciences.com.

HOW MUCH DOES IT COST:

Genome Medical charges \$179 per session and offers both insurance and self-pay billing options.

INSURANCE BILLING

Genetic counseling may be covered by your health insurance plan. For a list of insurers we are in-network with, please visit www.genomemedical.com/payors. While we're out of network with some plans, we would be happy to submit a claim on your behalf after your visit. Following your session we will submit a claim to your insurance. Please contact your insurance provider for a more accurate estimate of your financial responsibility.

SELF-PAY

If you prefer to self-pay for your appointment, you may do so by credit card at the time of scheduling.

**At this time, Genome Medical does not accept government affiliated insurance providers including Medicaid, Medicare and/or Tricare.*

If you or a family member have had genetic testing, please submit a copy of your result (or your family member's result) through our patient portal prior to your session. In addition, you will be asked to complete a questionnaire about your personal and family health history and what health information you hope to learn from your genetic counseling consultation before your appointment. It is helpful to know the types of cancer or tumors in your family, including the age of diagnosis in your relatives. If you have any questions or need to change your appointment, we're here to support you.

USEFUL INFORMATION FOR YOUR APPOINTMENT:

If you need help scheduling your appointment or have billing questions, please email us at riskguard@exactsciences.com or call our main line at **855 669-4579**. A member of our Clinical Care Coordination team would be happy to assist you.
